

 **GREYS**

**FLY CATALOG
'25 / '26**

Greys is quality gear engineered to perform without fail, to slide right into place for those adventures, and keep that good feeling going, and keep you doing what you love.

Founded over 50 years ago, Greys' European heritage and innovation provide the roots for today's adventure.

WING

The Wing series fully realizes the Greys philosophy on fly rod design. This is a comprehensive range of technique specific models covering every application, from advanced euro style nymph fishing to big river "Trout Spey" to Saltwater and technical dry fly.

Manufactured on specifically designed Powerlux carbon blanks, the Wing series feature a lower profile blank design with superb balance to help promote in-hand feel and excellent line control. The Wing series offers a perfect match, both in terms of performance and cosmetics, to the latest range of Greys high performance fly reels.

From Trout to Tarpon and Bonefish to Bass, there's a Wing series rod that can take you there.

WING STREAMFLEX

Through the years Streamflex has become synonymous with light line and European river fishing techniques. The Wing Streamflex takes that reputation to new heights offering improved actions, lower profile blank design, and superb balance to help promote in-hand feel and excellent line control. The Wing Streamflex Plus with its 12" extension piece offers added versatility to create the ultimate all round light line river rod.

- Powerlux 4 piece carbon blank
- AAA cork handle
- Lined stripping guides
- Black nickel stainless single/double foot guides
- Alloy reel seats with selected wood spacers
- Dual locking nuts with nylon cushion ring
- Keyed & milled reel seat slide band to reduce weight
- Rod section model ID & alignment dots
- Supplied in a rod bag and hard tube

The Wing Streamflex Plus with its 12" extension piece offers added versatility to create the ultimate all round light line river rod.

Hard tube with rod sock

WING TROUT SPEY

Versatility is the name of the game with the Wing Trout Spey rod series. Built on a low profile, specifically designed Powerlux carbon blank, these rods are light enough to cast single handed, yet the added length makes casting and mending easier than traditional single handed rods—resulting in longer and more natural drifts with nymphs and dry flies. And when you want to swing wet flies or cast great distances the two handed TPSF handle offers the ability to unlock the power of the Spey cast.

- Powerlux 4 piece carbon blank
- Versatile Trout-Spey action
- AAA cork handle
- Lined stripping guides
- Double foot snake guides
- Full Alloy reel seats
- Dual locking nuts with nylon cushion ring
- Keyed & milled reel seat slide band to reduce weight
- Rod section model ID & alignment dots
- Supplied in a rod bag and hard tube

GROWIN1145	1571764	11'4"	#5	TPSF	4	4.8

WING DOUBLE HANDED

When swinging big flies on big rivers for steelhead and salmon, the advantages of a double handed rod are unmatched. The Wing Double Handed rod series was specifically designed for covering distant lies with accuracy and control and battling powerful fish. These rods feature Powerlux carbon blanks with a lower profile to create superb balance and help promote in-hand feel and excellent line control.

- Powerlux 4 piece carbon blank
- Deep flexing medium fast action specifically designed for spey casting
- AAA cork handle
- Lined stripping guides
- Double foot snake guides
- Full Alloy reel seats
- Dual locking nuts with nylon cushion ring
- Keyed & milled reel seat slide band to reduce weight
- Rod section model ID & alignment dots

WING TRAVEL

Fly fishing can take you on great adventures to amazing places, and the Wing 6 piece Travel rods make getting there a little easier. Whether it's a backcountry hike or a 30,000ft airplane ride, the Wing 6 piece Travel rods offer the convenience of being able to tuck your rod inside a backpack or carry-on luggage without sacrificing performance.

- Powerlux carbon blank
- Compact 6 piece design perfect for travel
- Application specific action design
- AAA cork handle
- Lined stripping guides
- Single/double foot snake guides (model dependent)
- Alloy reel seat with selected wood or alloy spacers (model dependent)
- Dual locking nuts with nylon cushion ring
- Keyed & milled reel seat slide band to reduce weight

WING SALT

Saltwater fly fishing is a challenging endeavor that tests your gear as much as your abilities. Greys Wing Salt rods were designed to overcome the challenges of the environment, propel large, heavy and air resistant flies long distances, and do battle with some of the strongest and fastest fish in the world.

- Powerlux 4 piece carbon blank
- Saltwater specific design and action
- AAA cork handle
- Lined stripping guides
- Double foot snake guides
- Full Alloy reel seats
- Dual locking nuts with nylon cushion ring
- Keyed & milled reel seat slide band to reduce weight

KITE

A step forward from our accomplished Lance series of rods, the Kite features several performance and convenience upgrades combined with an expanded range of models that offer Greys performance across a wide range of fishing scenarios and techniques.

Built on a high intermediate modulus Greys TOREON blank offering refined and reliable performance, the Kite series also includes section alignment dots, model ID, captivated slide band alloy reel seats, and AAA grade cork handles. The range includes models perfectly suited to your discovery of everything from small trout in high mountain streams to big river Switch and Spey techniques for Steelhead and Salmon.

- TOREON 4 piece carbon blank
- High-recovery high-performance action
- AAA cork handle
- Single foot guides
- Lined stripping guides
- Alloy reel seat with selected wood or alloy spacers (model dependent)
- Dual locking nuts with nylon cushion ring
- Keyed reel seat slide band
- Rod section model ID & alignment dots
- Supplied in a rod bag and hard tube

KITE DOUBLE HANDED

The Kite Double Handed rod range offers all of the performance features you would expect from Greys, complete with a refined two part handle design, ideal for Spey casting techniques. Like all Kite rods, the Kite Double Handed range features a high intermediate modulus Greys TOREON blank offering refined and reliable performance. The Kite series also includes section alignment dots, model ID, captivated slide band alloy reel seats, and AAA grade cork handles.

GREYS

LANCE

72L

LANCE

The Lance series of single-handed fly rods is the perfect introduction to the Greys performance fly rod range. Manufactured with an intermediate modulus carbon fiber material, the Lance delivers performance well above its price with standard features, including high quality all-alloy reel seats, quality cork grips, and alignment dots. This concise range of performance fly rods offers both novice and experienced anglers alike the opportunity to experience the Greys difference first hand.

- Intermediate modulus 4 piece carbon blank
- User-friendly high performance action
- AAA cork handle
- Single foot guides
- Lined stripping guides
- All alloy anodized reel seat
- Dual locking nuts with nylon cushion ring
- Reel seat slide band with alignment mark
- Rod section alignment dots
- Supplied in a sectioned tube

TITAL

Greys flagship fly reel is fully constructed in bar stock aluminum and fitted with either a fresh or saltwater sealed disc drag system. As part of the Greys fly reel design concept, it shares many design traits with the other reels in the range, including a stunning large arbor design, simple secure spool release, high level manufacturing and finishing techniques, and high performance drag system combined with the increased impact resistance of full bar stock construction.

- High quality bar stock, machine finished construction
- Sealed carbon disc drag system
- Modern large arbor industrial design
- Supplied with reel pouch

TAIL

The Tail series of reels sets a new benchmark in design. Constructed from durable, die-cast aluminum that undergoes two separate machining processes to remove excess metal and for a stunning, highly finished design.

The Tail is fitted with a carbon disc drag for a smooth and dependable drag.

Finished with an anodizing pre-treatment plus a durable paint finish to ensure corrosion-free saltwater use, the Tail All-Water is fitted with a sealed all-water disc drag system generating over 10lbs of smooth drag.

Both reels feature an enclosed frame design to prevent line escape and; a rapid retrieve, large arbor design spool. More than a match for reels costing twice the price.

- High quality die-cast, machine finished construction
- Carbon disc drag system (sealed on the All-Water models)
- Modern large arbor industrial design
- Supplied with reel pouch

FIN

The Fin reels are the first range in the entirely Greys reel family, a beautiful performance reel in a never before seen die-cast construction.

The Fin is constructed from durable injection molded aluminum that undergoes two unique machining processes to perfect and polish it to a stunning finish. The reels are fitted with a full rulon disc brake system that provides a sturdy smooth drag. The fully enclosed frame prevents line escape and is designed with a large arbor spool for rapid retrieve and line care.

Fin reels set the standard in performance fly reels at an affordable price.

- High quality die-cast, machine finished construction
- Full disc drag system
- Simple left to right conversion
- Modern large arbor industrial design
- Supplied with reel pouch
