S26 Shipper Program

Program Terms

Product & Assortment

Each PDQ includes confirmed SKUs. We may make minor adjustments to the assortment or packaging if needed for production or inventory. Any changes will stay consistent with the intended product mix and quality.

Damaged PDQs

If a PDQ arrives damaged, we'll replace it at no cost. Please notify us within five (5) business days of delivery with photos and carrier details so we can process a replacement.

Shipping & Freight

Shipping and freight costs are the buyer's responsibility. MeatEater will choose the best and most affordable shipping option. Special routing or delivery requests may add cost.

Returns & Cancellations

Orders are final once production begins. Only damaged PDQs qualify for replacement. Please inspect all shipments on delivery and report visible damage within five (5) business days.

Storage & Handling

Program pricing assumes standard shipping timelines. Storage fees may apply if shipments are delayed or held beyond agreed dates.

Pricing

Pricing reflects current material and freight costs at the time of order. If major cost factors (like tariffs or freight rates) change before shipment, we'll communicate any adjustments before processing.

Overage Allowance

Delivered quantities may vary by up to $\pm 5\%$ due to normal production tolerances. Invoicing is based on actual quantities shipped.

Program Updates

We may make small updates to program details or timelines as needed for materials or production. Any changes affecting SKUs will be communicated in writing.
